I am interested in the following:

- CT Coronary Angiography Instrumentation & Protocols (DVD, release: Fall 2006, \$299)
- 50 Mentored Non-Contrast CT cases (DVD, release Fall 2006, \$199)
- 100 Mentored Contrast Case Studies (DVD) \$299
- 100 Unprocessed Practice Case Library \$199
- On site Consulting with Technician
- Online Mentoring of your own cases by level III mentors (**Cardiac NetMentor™**, starting Fall 2006)
- Cardiac PET CT lecture & workshop (DVD) \$199

THE
**Cardiac
NetMentor™**
PROGRAM

**Comprehensive Cardiac CT
Mentoring Program**
on your internet connected
Vitalimages Workstation
and your DVD Player

As first introduced as an
Exhibit at the

1st Annual Scientific Meeting
of the Society of
Cardiovascular Tomography (SCCT)
July 13-16, 2006

Presented by

**Cardiac Care
Critique**

As a participant in the **Cardiac NetMentor™** Program you will be able to use the **entire program without leaving your practice site!**

The program includes lectures, two complete series of mentored case studies on **DVDs** as well as unprocessed workstation cases, **on site instructions and internet case mentoring with the Cardiac NetMentor™**.

Case review and processing is **exclusively held on VitalImages™ Workstations** with the **Cardiac NetMentor™** Software, without regard to the make of the CT scanner.

This **comprehensive training program for reading Cardiac CT** is a **unique opportunity** for cardiologists and radiologists to be trained at their site by using modern technology and the expertise of **level III mentors as well as a skilled technician.**

Your Advantages:

- Training Program towards achieving Level II Cardiac CT Core Competency
- No travel expenses
- No loss of work time and income
- Personal appointment time for individual or group training
- A highly skilled technician available to travel to site for hands-on instructions
- Learn online with expert level III mentors

The Cardiac NetMentor™ Program includes:

1. Coronary CTA Protocols by Dr. Frank J. Rybicki, MD, PhD (DVD, release: Fall 2006)
2. 50 cases of non-contrast CT mentored by Dr. Eric Harrison, together with Tracey Saunders (DVD, release: Fall 2006)
3. 100 contrast case studies mentored by Dr. Pim J. de Feyter and Dr. Eric Harrison, together with Tracey Saunders (DVD)
4. Unprocessed practice case library (Workstation)
5. On site Cardiac CT Technician consulting available
6. Online Mentoring of your own cases by level III mentors: **Cardiac NetMentor™** (starting Fall 2006)
7. Cardiac PET/CT and Coronary CTA Lecture & Workshop by Dr. Marcelo DiCarli with Dr. Eric Harrison (DVD)

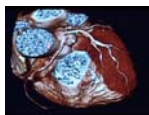

How it works:

The following DVDs should be studied while your CT scanner is installed:

1. **“CT Coronary Angiography Instrumentation & Protocols”** can be studied on a DVD presented by **Dr. Frank J. Rybicki, MD, PhD**, who is Co-Director of the Cardiovascular Imaging Section and Director of the Applied Imaging Science Laboratory in the Department of Radiology at Brigham Women’s Hospital. He is also Assistant Professor of Radiology at Harvard Medical School.

2. **“50 Mentored Cases of Non-Contrast CT, Calcium Scoring”** by **Dr. Eric Harrison**, together with Tracey Saunders

3. **“Practical Interpretation of Coronary Artery Computed Tomography on the Workstation”**

With this **4 hour** Educational 3 DVD Set you will learn from **over 100 mentored cases in 8 different chapters**. All cases are presented and reviewed on the VitalImages™ Workstation by the technologist and the physicians;

Dr. Pim J. de Feyter, editor of “Computed Tomography of Coronary Arteries” and **Dr. Eric Harrison**

After your CT scanner has been installed with your VitalImages™ Workstation your training will continue by;

4. Practicing cases from the **100 unprocessed Case Library on your workstation** with written interpretive support

5. Training on-site with a **Cardiac CT Technician** will be available upon your request.

6. **Reviewing your own cases daily on your own workstation** after they are acquired, via live Internet connection by an **expert level III mentor using Cardiac NetMentor™**.

To accomplish this, your VitalImages™ Workstation **will be upgraded** with a whiteboard and SimulRead™ Software for simultaneous expert review of studies, as well as VOIP Software for instant communication via headsets.

Connectivity with a T3 Line and a Virtual Private Network (VPN connection) will be necessary to take advantage of this unique part of the training program. We will need your access codes to connect with your workstation thru the internet, which will be HIPPA compliant.

Further training as you advance in Cardiac CT Imaging, will include these DVDs presenting integrating anatomy with function with the use of PET/CT and coronary CTA;

7. **“Cardiac PET/CT and Coronary CTA, Lecture and Workshop”**: a **two DVD Teaching Program** of Multimodality Imaging presented by **Dr. Marcelo Fernando DiCarli, M.D.**, Chief, Division of Nuclear Medicine-PET, Co-Director of Cardiovascular Imaging, Radiology Brigham Women’s Hospital, Boston With **Dr. Eric E. Harrison**, Clinical Associate Professor of University of South Florida.
